

Music Lessons

We believe that private instruction is the best way for anyone to learn how to play an instrument. One-on-one instruction means that students are given the instruction that best suits how they learn as an individual. Our music teachers have University training and are highly experienced in the instruments that they teach. Students can start private lessons as young as 5 years old at any time of the year or month.

Private Lessons are Available For:

Piano, Keyboard and Voice

Lessons are 30 minutes in length

We offer lessons at convenient times!

Piano & Keyboard Lessons

We offer piano lessons for students of all ages and abilities from beginners to advanced students. We offer every style of piano lessons from classical to jazz to pop. We start piano lessons from age five onwards. Our piano teachers have university or college training and are active performers.

Voice Lessons

In our private voice lessons, students sing all kinds of music from their favorite artists to classical arias. Our voice teachers all have a university degree in music specializing in voice and sing everything. Our teachers all have performance backgrounds as well. Just a sample of what a student will learn in singing lessons includes how to breathe properly, how to increase their range, proper pitch, how to project and stage presence.
